

The fall schedules have been announced for the major networks, and we've got the schedules summarized here. Note that *V* is returning though it doesn't appear on this schedule; ABC hasn't chosen exactly where it'll go when it returns as a midseason replacement. Similarly, *The Cape* and Spielberg's sci-fi *Terra Nova* are not scheduled yet. Also, note the time changes for several shows, particularly *Supernatural* and *The Big Bang Theory*.
